

Wales HIGH SCHOOL

HEADTEACHER: MR. G. DI'IASIO

PE/KE

October 2019

Dear Parent/Guardian

Bridon Wire Ropes Visit – Wednesday 20th November 2019

As part of the Level 3 Engineering course, students need to develop an understanding of the real world application of the Engineering theory they are studying which, in this case, is the properties and testing of materials. To aid this we have arranged an industrial visit to Bridon International and their materials testing laboratory based in Doncaster.

There is no charge for this visit and school will cover the cost of transport. Students will depart from school at 8:50am on Wednesday, 20th November and will return in time for lunch. As this is Super Learning Day, students will need to arrange the rest of their day's activities with the Y12 team.

I would be grateful if you could complete and return the completed reply slip below to Mr Elliott by **Friday, 8th November 2019**.

Yours sincerely

P Elliott
