**The UK's TOTAL WEALTH is becoming less relevant as a "Measure of Wellbeing" as the "Distribution of Wealth" becomes more unequal. Try to find information on at least 5 of the following...**

- Income & Wealth Inequality and Life Expectancy (do the poorest live as long as the richest?)
- Income & Wealth Inequality and Educational Qualification
- Income & Wealth Inequality and Crime Rates
- Income & Wealth Inequality and Prison Sentencing
- Income & Wealth Inequality and Victims of Crime
- Income & Wealth Inequality and Teenage Pregnancy
- Income & Wealth Inequality and Drug Addiction
- Income & Wealth Inequality and Alcoholism
- Income & Wealth Inequality and Divorce Rates/Single Parenthood

**...hopefully you will find some correlation (relationship) between the above, which we can discuss upon our return to School in September: Mostly, today's big issues are a....**
