

A Level PE Practical Video Evidence

The evidence needs to be:

- A fully competitive situation, for example, a league match for Football, a national swimming meet
- The full version of the game/ performance
- At least an entire half of a match, ideally the entire game
- At least 3 pieces of evidence from different competitions
- The camera must remain on and not be stopped and started as evidence is not allowed to appear edited
- The camera should remain on the performer and not follow the ball etc

If you would like to borrow the department video camera or an iPad that is fine, but some phones are just as good, and evidence should be placed on the memory stick Mrs Lyne gave you.

All students have been given the Specific Assessment Requirements needed for their sport.

If you require any more help or support please contact Mrs Lyne on vl@waleshigh.com
